

MessageFactory::createMessage

```
graph LR; A[MessageFactory::createMessage] --> B[MessageFactory::register<br/>MessageType]; B --> B;
```

The diagram consists of two rectangular boxes. The first box on the left is gray and contains the text 'MessageFactory::createMessage'. A straight blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the text 'MessageFactory::register' on the top line and 'MessageType' on the bottom line. A curved blue arrow starts from the top of the second box and points back to the top of the same box, indicating a self-call or loop.
