

server/src/MessageBase.cpp

```
graph TD; A[server/src/MessageBase.cpp] --> B[MessageBase.hpp]; B --> C[IMessage.hpp]; C --> D[vector]; C --> E[cstdint];
```

The diagram illustrates a set of file dependencies. At the top is a dark gray box labeled 'server/src/MessageBase.cpp'. A blue arrow points down from this box to a white box with a black border labeled 'MessageBase.hpp'. Another blue arrow points down from 'MessageBase.hpp' to a white box with a black border labeled 'IMessage.hpp'. From 'IMessage.hpp', two blue arrows branch out downwards to two separate light gray boxes: 'vector' on the left and 'cstdint' on the right.

MessageBase.hpp

IMessage.hpp

vector

cstdint
